Forecast for Tuesday 26 Apr 2022

Weather: During the morning there will be a mix of bright or sunny spells but cloud will thicken at times and it may seem quite dull, perhaps the odd light shower. It looks likely to brighten once again during the evening.

Chance of cloud-free hill tops above 800m: 80%, some early low cloud in the morning will lift and thin during the day.

Low cloud and visibility: At dawn cloud bases will be scattered above 600m especially around northern and eastern fells, perhaps more patchy around 700m further south and west of the area. Cloud will lift and clear with just patches of lower cloud above 700m in the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Notice the lowering of freezing level towards the summits. Chilly at height in the morning and it may be deceptively warm in the sunshine at lower levels.

Forecast for Wednesday 27 Apr 2022

Weather: A cold start to the day but generally a very settled day with light winds. Bright or sunny spells are expected but it may be a cloudy start particularly around in the east.

Maximum wind: Mainly northeasterly 5-10 mph.

Chance of cloud-free hill tops above 800m: 60 rising to 90%, early low cloud is likely to lift and clear away.

Low cloud and visibility: Scattered low cloud from 700m initially will lift and become patchy, perhaps just patches of cloud around 800m in the afternoon.

Temperature: **Valleys:** Zero rising to Plus 12 Celsius.
At 800m: Minus 3 rising to Plus 6 Celsius.
Freezing level: 800m rising to 1000m later.
